自我介绍模板

一、自我介绍要介绍什么?

自我介绍的**核心目的**是打造一个符合老师心目中研究生形象的人设。很多人的自我介绍中就只有介绍, 根本就没有自我, 只是在简单地堆砌信息, 就好像在“念简历”, 这样的自我介绍是没有灵魂的。以下是整个自我介绍的模板(大家可以根据自己的情况进行改写)。

模板包括了: 开场白-自我介绍(基本信息+经历+能力+价值)-选择学校和专业的原因-结束语。由于每个人的情况都不同, 所以我的模板的形式是先给出通用的方法, 然后举例, 大家可以按照模板的框架, 根据自己的实际情况去写。

二、中英文自我介绍模板

(一) 开场白(四个句子任选其一)

尊敬的各位老师, 大家上午/下午好!

1. 很高兴能获得这个宝贵的面试机会。
2. 很荣幸能够获得这个跟您们沟通交流的机会!
3. 很荣幸接到通知来参加这场面试!
4. 很高兴能够在这里参加这次面试!

Good morning/afternoon, dear teachers!

1. I'm glad to have this valuable interview opportunity.
2. I am honored to get this opportunity to communicate with you!
3. I'm honored to be notified to attend this interview!
4. I'm glad to be here for this interview!

(二) 自我介绍-基本信息+经历-能力-价值(八大方面)

1. 前言:

把自己身上的几个标签、自己的亮点经历写上, 再进行相应能力和良好品质

的诠释, 不动声色地打造人设, 让老师记住你并且认可你! 老师喜欢的研究生: 有一定科研能力(如项目经历、论文、竞赛等); 行动力强(项目经历, 学生工作经历); 心理健康(性格好, 做志愿者的经历); 做事情踏实细心(不同类型的学生工作, 如会写策划, 校对文稿, 写推文, 组织活动, 与人沟通); 不怕吃苦(耐心); 沟通能力强(面试的时候一定不要畏畏缩缩); 为人谦虚, 高情商... 切记一定要真诚, 老师都是过来人。

要让别人记住你的能力, 而不是经历! 将自身优势转化为价值, 为导师提供一个录取你的理由(不知道自己的优势是什么的同学, 请记住你的时间花在哪里, 你的优势就在哪里。你需要做的就是将优势和老师的需求匹配)

公式: 经历+对应的能力和品质+对读研有什么帮助(做调研、科研、学习、生活等)(这点可以适当省略或精简)

2. 具体内容:

(1) 基本信息

(包括姓名, 本科院校和专业即可。其他信息你的简历上(老师面试时一般会有你的资料)都有, 不要像读简历一样都说一遍。)

我叫 XXX, 就读于 XX 大学, XX 专业。(如果你的学校有某方面的特色或者你的专业有资历比较深的教授可以提及, 但是老师很可能会追问, 需要做好准备)

My name is XXX, and I am studying at XX University, majoring in XX.

(2) 经历、能力和价值

这几项是结合在一起表达的。用经历事实来做支撑, 体现你有某方面的能力, 从而证明你有某方面的价值。再次强调公式: 经历+对应的能力和品质+对读研有什么帮助(做调研、科研、学习、生活等)。

模板从科研项目、本科学习成绩、竞赛、学生工作、校外活动/项目、体育活动、学习与生活(工作)的平衡、读博八大方面来介绍自己。

在大学的这几年里, 我做了很多事情, 也学到了很多。

In the last few years in college, I have done a lot of things and learned a lot.

(重要程度是从前往后递减, 我的模板只是举例说明, 大家可以根据你的实际情况选择几点进行改写套用)

a. 科研项目

(体现科研能力、耐心、毅力、发现和解决问题的能力)

大二时, 我成功申请了校级大学生创新创业项目, 项目名称是 XXX, 我在这个过程中感受到了科研的苦与乐, 苦在于研究内容的选择之难, 处处查找数据而不得的懊恼, 实地调研过程中的舟车劳顿等等, 而乐则在于即使有前面所述种种困难, 我依然可以一一找到解决方法, 比如在统计局中找不到相关数据我就去专业相关论坛等不同地方最终找到了需要的数据, 并且坚持高质量完成了研究课题, 发表了一篇论文《XXX》。

When I was a sophomore, I successfully applied for the innovation and entrepreneurship project for college students. The name of the project is XXX. In this process, I felt the pain and joy of scientific research. The pain lies in the difficulty of choosing research content, the frustration of searching for data everywhere, the fatigue in the field research process, etc, while the joy lies in that I can find solutions one by one despite all the aforementioned difficulties. For example, if I couldn't find relevant data in the Bureau of Statistics, I went to different places such as professional related forums and finally found the needed data, and insisted on completing the research project with high quality, and published a paper XXX.

b. 本科成绩

(体现学习能力和认真学习的态度)

在大学期间我认真学习, 获得了 GPA 4.0 的成绩, 也多次获得奖学金 (有多次一等或者国奖可以列出来)。我阅读了很多专业相关书籍, 其中我最喜欢的是《XX》, 因为这本书 XXX (没有的话就不要说了, 因为老师可能会追问)

During my college years, I studied hard, got a GPA 4.0, and won many scholarships. I have read a lot of professional books, among which XX is my favorite, because it XXX.

c. 竞赛

(体现跟竞赛相关的能力, 比如数学竞赛体现严谨和逻辑思维能力)

我参加了全国大学生英语竞赛, 在这个过程中不断学习, 现在我的单词量达到了 8000 左右, 并且口语和阅读能力都有很大的提升。我认为学好英语这个知识的传递工具是对将来阅读外文文献有很大的帮助的。

I took part in the National English Competition for College Students, and kept learning in the process. Now my vocabulary has reached about 8,000, and my oral and reading abilities have been greatly improved. I think learning English well, as a tool of knowledge transmission, is of great help to reading foreign literature in the future.

我参加了大学生数学建模竞赛, 在比赛中取得了一等奖的成绩。我在这个过程中不断学习, 数理逻辑能力有了很大的进步。我认为数理逻辑能力对于科研来说是最重要的能力之一。

I took part in the National Mathematical Contest in Modeling for College Students and won the first prize in the contest. In this process, I keep learning, and my mathematical logic ability has been greatly improved. I think mathematical logic ability is one of the most important abilities for scientific research.

d. 学生工作

(体现文字能力、文稿校对能力、行动力、细心、体现自己愿意做事情的态度)

我参加了学生会的文体部, 平时主要的工作包括写策划, 校对文稿, 写推文, 办活动等。在这个过程中我锻炼了自己的文字能力、文稿校对能力和与人沟通的能力, 也更加认识到了认真细心能决定事情的成败。同时我也担任了班级的 XX

职位, 因为我认为为同学服务是一个很快乐的过程, 也在这个过程中交到了很多好朋友 (体现自己健康合群的性格)。

I participated in the Culture and Sports Department of the Student Union, and my main work included writing planning, proofreading manuscripts, writing manuscripts, organizing activities and so on. In this process, I have trained my writing ability, manuscript proofreading ability and ability to communicate with others, and realized that being careful makes the difference between success and failure. At the same time, I also took the XX position in the class, because I think serving my classmates is a very happy process, and I have made many good friends in the process.

e. 校外活动/项目

(一些比较特别的, 能给老师留下印象, 并且能体现你某方面良好品质的事件, 这是加分项, 如果没有就不用写。最好结合你的具体经历, 像讲故事一样娓娓道来, 让人觉得有特点。)

除了校园生活以外, 我也参加了一些校外活动/项目。

Besides campus life, I also took part in some extracurricular activities/programs.

我参加了很多志愿者活动。例如, 我参加了罕见病中心组织的科普项目, 定期向公众宣传罕见病的相关知识, 让公众有一个对罕见病更好的认知, 在服务过程中我学习到了很多工作的技能, 也对罕见病这个群体的生活状态有了整体的认知, 因为罕见病患者当中其实很多人都能很乐观积极的对生活, 所以也很大程度上感染了我。

I participated in many volunteer activities, for example, I took part in the popular science project organized by the Center for Rare Diseases, regularly publicized the knowledge of rare diseases to the public, and made the public have a better understanding of rare diseases. In the course of service, I learned a lot of work skills, and also had an overall

understanding of the living conditions of this group of rare diseases, because in fact, many patients with rare diseases can be very optimistic and positive about life, so they also infected me to a great extent.

f.体育活动

(体现能吃苦, 有毅力等品质, 并反映出自己身体素质较好)

我还参加了青年马拉松比赛, 坚持全程虽然很难, 但是当你完成了全程, 那种自豪感是从心底油然而生的。为此我还坚持跑步训练, 也因此拥有了更加强健的身体素质!

I also took part in the youth marathon. Although it is difficult to stick to the whole race, when you finish the whole race, you will feel proud from the bottom of your heart. For this reason, I also insist on running training, so I have a stronger physical quality!

g.学习与生活(工作)的平衡

(体现吃苦耐劳, 有行动力, 有规划, 做事能力较强, 能兼顾学习与工作; 如果你的专业是要求经常呆在实验室的就不建议写这条, 部分专业的老师可能不希望学生出去工作)

在大学期间我自己勤工俭学, 通过给中学生补课的方式完全负担了自己的学费和生活费, 的认为这样的经历给我带来了一些良好的习惯和品质, 比如让我更加善于规划自己的时间, 在学习和工作中找到平衡; 也增强了我的行动力, 除了把工作做好, 对于我在学习上的主动性也有帮助。

During my college years, I worked part-time and paid for my tuition and living expenses by tutoring middle school students. I honestly think that this experience has brought me some good habits and qualities, such as making me better at planning my own time and finding a balance between study and work. It also enhanced my mobility. Besides doing my job well, it was also helpful for my initiative in learning.

h.读博

(如果是报考学硕且有读博想法的同学可以表达出自己的意愿, 是加分项)

我将来打算在这个专业领域深耕, 并且继续考取博士, 希望您们能给我这个机会让我开启该领域的学术之路。

In the future, I plan to deepen my studies in this field and continue to get a doctor's degree. I hope you can give me this opportunity to open up the academic path in this field.

(三) 选择这个学校的原因

以下提供几种不同的选择, 可以根据自己的情况挑选合适的进行改写, 如果时间不够, 这部分可以简略带过。

1. 对于同专业或相关专业的考生。

先说自己对这个学校和专业的了解(要具体), 但不要提到具体某个老师(防止受到老师之间内部矛盾的影响), 然后表明自己对这个学校和专业的向往和憧憬之情, 最后提一下自己之前的经历和这个专业之间的契合点。如:

之所以选择报考北大的社工专业, 一方面是因为北京大学的社会工作专业在中国是数一数二的, 我了解到北大的社工专业非常注重社会实践, 学生会有很多机会跟随导师去做田野调查、和同学进入社区开展服务, 这比较符合我的理念。而且北大有很多学术资源、高级别的学术研讨会等, 这些都是我所向往的。另一方面, 我本科的专业是社会学, 跟社会工作也是有着千丝万缕的联系, 所以就不知不觉中了解认识了社会工作这个专业, 我自己在本科期间也以志愿者的身份做过一些社区的服务, 我特别赞同社会工作中“助人自助”的理念, 想要在这个领域中贡献自己的绵薄之力。

The reason why I chose to apply for the social work major of Peking University is that the social work major of Peking University is one of the best in China. I know that the social work major of Peking University pays great attention to social practice, and students will have many

opportunities to follow their tutors to do fieldwork and join their classmates in community service, which is more in line with my philosophy. Moreover, Peking University has many academic resources, high-level academic seminars and so on, which are all what I aspire to. On the other hand, my undergraduate major is sociology, which is also inextricably linked with social work, so I naturally got to know the major of social work, and I myself did some community services as a volunteer during my undergraduate period. I especially agree with the concept of "helping people to help themselves" in social work, and want to contribute my own modest efforts in this field.

2. 对于跨专业的考生。

也先说自己对这个学校和专业的了解（要具体），但不要提到具体某个老师（防止受到老师之间内部矛盾的影响），然后表明自己对这个学校和专业的向往和憧憬之情，最后提一下自己想要转专业的原因，如果原专业学习有报考专业需要的技能就是加分项（理工科很大的优势是数理逻辑能力）。如：

之所以选择报考北大的社工专业，一方面是因为北京大学的社会工作专业在中国是数一数二的，我了解到北大的社工专业非常注重社会实践，学生会有很多机会跟随导师去做田野调查、和同学进入社区开展服务，这比较符合我的理念。而且北大有很多学术资源、高级别的学术研讨会等，这些都是我所向往的。另一方面，虽然我本科专业是国际经济与贸易，但是我在本科时由于参加了较多的志愿者活动，从而了解到了社会工作这个专业，我认为这个专业和我的理念比较符合，都是希望能够“助人自助”，（点到一下专业的特质）所以我毅然决然地决定要跨考到贵校的社会工作专业，在研究方法上我比较偏向定量分析，我本科专业也很注重统计学的培养，所以在这方面我是有优势的，希望您们能给我这个机会在这个领域中贡献自己的绵薄之力。

The reason why I chose to apply for the social work major of Peking University is that the social work major of Peking University is one of the best in China. I know that the social work major of Peking University

pays great attention to social practice, and students will have many opportunities to follow their tutors to do fieldwork and join their classmates in community service, which is more in line with my philosophy. Moreover, Peking University has many academic resources, high-level academic seminars and so on, which are all what I aspire to. Although my undergraduate major is international economy and trade, I learned about the major of social work because I participated in a lot of volunteer activities. I think this major is in line with my philosophy, and I hope to help people to help themselves. So I resolutely decided to cross-examine the major of social work in your university. I prefer quantitative analysis in research methods, and my undergraduate major also pays great attention to the cultivation of statistics, so I have an advantage in this respect, and I hope you can give me the opportunity to contribute to this field.

三、范例

Good morning, dear teachers! I'm glad to have this valuable interview opportunity. My name is Xiaoming, and I am studying at Nanchang University, majoring in Sociology. In the last few years in college, I have done a lot of things and learned a lot. When I was a sophomore, I successfully applied for the innovation and entrepreneurship project for college students. The name of the project was Psychological Factors Affecting the Behavior of "Strangers Socializing" on the Internet and Its Essence. In this process, I felt the pain and joy of scientific research. The pain lies in the difficulty of choosing research content and the frustration of searching for data everywhere etc., while the joy lies in that I can find solutions one by one despite all the aforementioned difficulties. For example, if I couldn't find relevant data in the Bureau of Statistics, I went to different places such as professional related forums and finally found the needed data. During my college years, I studied hard, got a GPA

(上面的英文自我介绍中, 由于考虑了时间问题, 所展示的内容有限。下面是英文介绍的翻译。在正常的中文介绍中, 由于大家读中文的语速快, 可以多加入一些内容, 更加全面的介绍自己)

尊敬的各位老师, 大家好! 很高兴能获得这个宝贵的面试机会。我叫小明, 就读于南昌大学, 社会学专业。

在大学的这几年里, 我做了很多事情, 也学到了很多。大二时, 我成功申请了校级大学生创新创业项目, 项目名称是《影响互联网“陌生人社交”行为的心理因素及其本质》, 我在这个过程中感受到了科研的苦与乐, 苦在于研究内容的选择之难, 处处查找数据而不得的懊恼, 而乐则在于即使有前面所述种种困难, 我依然可以一一找到解决方法, 比如在统计局中找不到相关数据, 我就去专业相关论坛等不同地方最终找到了需要的数据。在大学期间我认真学习, 获得了 GPA

自我介绍一定要控制在**两到三分钟**(具体参考目标院校的标准), 否则老师可能会打断你, 你就无法给老师呈两到三分钟关于你自己完整的信息, 从而影响对你的评价。**老师往往会从你的自我介绍中寻找话题展开接下来的面试**, 因此在这宝贵的两到三分钟之内, 一定要把自己最重要的能力经历放在最前面, 引起老师们的兴趣, **且要提前预想老师可能提问的问题, 并想好如何用中英文回答(这点非常重要, 也可以故意在自我介绍中设计问题引导老师去问, 如通过多次强调、重读、适当停顿等方法引起老师的注意, 这个就看大家的本事啦)**。

大家也可以将前面的自我介绍和后面的常见问题结合起来, 一是自我介绍也可以参考后面的内容, 二是可以在自我介绍中设计问题, 用后面的回答。

中英文面试 36 问 36 答

一、一般问题的提问

(一) 个人相关

1. 你的兴趣爱好是什么? What are your hobbies?

(根据实际情况先举例一项或几项, 可以扩展一下具体的内容, 比如你具体喜欢什么类型的电影或者哪一部电影, 喜欢哪种运动, 去过哪些地方旅游等, 也可以再加上一句简单的原因。请根据需要自行删减。)

我的兴趣爱好是跳舞/下棋/听音乐/看电影/阅读/运动健身/旅游/烹饪等。

我认为阅读对于我们大学生来说很重要, 它可以提高我们的写作和批判性思维能力, 这对于我们的学习和生活都非常有益。

My hobbies and interests are dancing/playing chess/listening to music/watching movies/reading/working out/traveling and cooking.

For example, I really like table tennis. I think it is a physical activity I can do every day. Not only does it keep me healthy, but it also lets me make a lot of friends.

I believe reading is a vital activity for our college students. It can improve writing skills as well as critical thinking skills, which can benefit our study and life.

2. 你最尊敬的人是谁/你的偶像是谁/对你影响最大的人是谁, 为什么? Who do you respect/admire most? Who has influenced you most? In what way does that person inspire you?

产生的影响。)

例: 我最尊敬的人是“杂交水稻之父”袁隆平院士。他帮助中国创造了一个伟大的奇迹——用不到世界总面积 9% 的土地养活了世界上将近五分之一的人口。他把一生浸在稻田里, 把功勋写在大地上。他一生坚持科技报国, 创新济民, 矢志探索, 不懈钻研, 他的崇高品格和高尚情操生动诠释了新时代科学家精神。他的事迹让我认识到珍惜粮食的重要性, 并且让我坚定了为人民服务 and 贡献祖国的决心。

The person I admire most is Yuan Longping, the father of hybrid rice. He has helped China work a great wonder — feeding nearly one-fifth of the world's population with less than 9 percent of the world's total land. His entire life was immersed in the paddy fields, and his feats were spread across the land. He/She committed his/her life to serving the nation/society/world through science, technology and innovation/education. His/Her sublime character and noble sentiment vividly portrays the spirit of scientists/educators in the new era. His/Her deeds made me grasp the importance of cherishing food/peace, and let me firm determination to serve the people and contribute to the motherland.(这几句可用于其他科学家、教育家等)

3. 你的优点和缺点是什么? 或请描述你的性格特点。What are your greatest strengths/weaknesses? /Please tell us something about your characteristics/personality?

(大家写自我介绍的时候里面可能会写, 如果老师单独问到这个问题可以说得更具体。说优点时可以尽量去符合你的专业所需要的优点, 比如有的专业喜欢沉稳的学生, 有的专业喜欢活泼的学生, 像“hard working”这种其实不必说了, 因为能来的学生一般都努力; 说缺点时要尽可能说一些不会影响专业学习、无伤大雅的缺点。说优缺点时不能有矛盾。如果有具体事例最好结合自己的事例。)

honest 务实的和诚实的/initiative 主动的/cooperation 合作能力/pioneering and innovative ability 开拓创新能力/expression ability 表达能力/hands-on ability/have good analytical and problem-solving skills 有较好的分析和解决问题的能力/have a great habit of critical thinking/good at planning 善于计划 • • • • •

Weaknesses: feel nervous in public 在公众面前有点紧张/stubborn 固执/have some anxiety before the exam 考试前有些焦虑/too plain 过于直率/excessively frank 过于直率/shy 害羞/lack of self-confidence 缺乏自信

例: 关于我的优点。首先,我非常冷静和内敛。在面对不熟悉的环境和意料之外的事件时,我有较强的适应能力。另外,我会每周制定计划并且严格完成计划。当我决定做某事,不管遇到多大困难,我都会克服它。除此之外,我还具有同理心并且很乐观,因此我可以与他人愉快相处,并且乐于助人。

我觉得我最大的缺点是缺乏自信。在考试或者演讲之前,我总是担心自己做得不好。即使我已经练习了一遍又一遍。但是我现在在努力改正。比如,我会更多地和朋友分享完成一项任务的感受,会回顾在其中做的好的点,运用更多的理性分析,而不是沉浸在焦虑的情绪中。

First of all, I am calm and restrained. I have strong adaptability and resilience when facing an unfamiliar environment and unexpected events.

Moreover, I will make a plan for myself every week and complete the tasks strictly according to the plan. Once I determine something, no matter what difficulties I confront, I will overcome it.

In addition, I am empathetic and optimistic so that I can get along with others cheerfully and frequently help others. (优)

I think my greatest weakness is my lack of self-confidence. When comparing myself with others, I always focus on my shortcomings and magnify them. Before an examination or a presentation, I constantly fear that I'm not doing well. Even though I've practiced it over and over again. But I'm trying to correct it. For example, I share more with my buddies how it feels to complete a task, review what I did adequately, and use more rational analysis rather than wallow in anxiety. (缺)

4.你的英语/数学(某一科目)能力水平怎么样? 你研究生期间打算如何提升?
怎样提升英语? How about your English/math? How do you plan to improve this subject during your postgraduate study?/How to improve your English?

My father/mother/grandfather/grandmother had a vital influenced on me.

My grandfather used to be a soldier, and his thrift as well as his integrity influence me. Although he always forgets many things he said and did, he never forgets to love me.

My mother is a brilliant and generous lady. She had a difficult life when she was young, and she worked very early to support herself. I also want to be an independent and optimistic woman like her.

My father has always been available for my questions and helped me solve countless problems with infinite patience.

2.能否为我们介绍一下你的家乡? Please introduce your hometown?

(主要是自然+人文, 可以从家乡的称号、美食、经济发展、历史文化、著名景点等角度描述, 如果老师单独问家乡经济发展、历史文化、最喜欢家乡哪些地方等这些问题, 也可以灵活回答)

例: 我的家乡是昆明, 坐落于云南的中北部。众所周知, 昆明因其四季如春

被誉为中国的“春城”。/大连是中国著名的旅游城市, 拥有美丽的山海自然风光。

首先, 我们的旅游业和进出口商品贸易发展得很好。我们有许多著名的景点, 比如西山森林公园、滇池、翠湖公园等。另外, 我们的鲜花销往全国各地, 昆明斗南是亚洲最大的国际花卉交易市场。除了大宗贸易, 斗南市场的鲜花零售也在如火如荼地进行着, 斗南市场已成为昆明的一個热门旅游景点。其次, 昆明是国务院公布的首批 24 个历史文化名城之一, 早在三万年前就有人类在滇池周围生息繁衍。最重要的是, 昆明的人儿都非常热情好客, 懂得享受生活。欢迎大家来我的家乡。

Kunming is my hometown, located in the north-central part of Yunnan Province.
(如果是直辖市就说在中国的某个方位, 或者在某个省份的某方位) As we all know, Kunming is known as the *spring city* in China because of its beautiful weather.
/With its beautiful natural scenery featuring mountains and sea, Dalian is a well-known tourism city in China.

First of all, our tourism and import and export trade are evolving very well. We have plenty of famous scenic spots, such as Xishan Forest Park, Dianchi Lake and Green Lake Park.

Besides, our flowers are sold all over the country. Dounan, is the largest international flower trading market in Asia. Besides bulk trading, flower retailing is in full swing in the Dounan market, which has become a popular tourist attraction in Kunming.

Thirdly, Kunming is one of the first 24 historical and cultural cities declared by the State Council. As early as 30,000 years ago, human beings lived and bred around Dianchi Lake.

Most importantly, people in Kunming are very hospitable and wise to enjoy life. Welcome everyone to my hometown (最后这两句话万能)。

(学校现位于哪个城市, 何时由何人创立, 学校的突出贡献, 学校优势专业, 学校的知名校友, 学校的标志性建筑, 学校的学风优良, 感恩母校, 我爱母校。提醒: 如果你的专业是学校的国家重点学科专业、国家特色专业或者其他有名号的专业, 可以重点提一提, 如果是一般的专业就随便说不说学校的优势专业了; 一般校训都不好翻译, 大家就不要麻烦自己了; 校友就挑那些耳熟能详的名字说; 下面给的是比较模糊的说法, 另外例子有些描述与学校真实情况无关。)

例: 湘潭大学位于湖南省湘潭市, 学校创办于 1958 年, 是毛泽东同志亲自倡办的综合性大学。我们的校友中有许多中国科学院的所长, 许多知名高校的校长和老师。从数学计算机届到法政届, 都能见到湘潭大学的学子。我的母校学习氛围浓厚。我所在的信息与计算机科学是国家重点学科专业。感恩母校给我提供了良好的学习环境, 备考期间学校给予了我们很多关心和便利。我非常爱我的母校。

Xiangtan University is located in Xiangtan City, Hunan Province.

First of all, founded in 1958, Xiangtan University is a comprehensive university initiated by MAO Zedong.

Furthermore, there are many directors of the Chinese Academy of Sciences, presidents and educators of many well-known universities among our alumni. Our students can be seen from mathematics and computer science to law and politics.

Most importantly, Xiangtan University has a strong learning atmosphere. Information and Computer Science is one of the national key disciplines, which is my major. I participated in my tutor's project XX in my freshman year/sophomore year/third, junior year/fourth year.

The main work of the project was XX, in which I was responsible for XX. I met with X (difficulty). After trying to figure it out, I realized I couldn't do it alone. Subsequently, I consulted my teacher and classmates and ultimately resolved the problem with the X (method).

After this practice, I have a deeper understanding of our major as well as the importance of teamwork. I also enhanced my analytical ability and social skills at this event. I will learn more modestly in the future.

3.介绍一下大学期间最喜欢/最尊敬/印象最深的/对你影响最大的老师? Tell us about your favorite teacher./Introduce your most respected teacher./Who is your most impressed teacher?Which teacher has influenced you the most?

例: X, 非常友好和耐心, 是我最喜欢的大学老师。她教我论文写作/她教我

写严谨易读的数学。首先,她在教学中非常认真,课堂内容总是很丰富。她懂得如何吸引学生的注意,她总是尝试让枯燥的内容变得生动有趣。其次,不论是家庭还是工作,她都处于最繁忙的时期,但是她总是很乐观和沉稳。最后,她与学生相处非常融洽,不仅在课堂上耐心回答问题,课后也会倾听学生的烦恼。我从她身上学到了很多优秀的品质。

First of all, she takes her teaching seriously, so her lessons are always rich in content. She knows how to attract students' attention, and she always tries to live up the dull content in class.

Secondly, even though she is in the busiest period both at home and at work, she is optimistic and peaceful.

Finally, she gets along well with her students. She not only answers questions patiently in class, but also listens to our troubles after class. I learned many excellent qualities from her.

4.大学期间最喜欢的课程/专业课? What is your favorite subject and why?

(如果老师问这个问题,你可以说非专业课也可以说专业课,说某一门专业课的话尽可能把喜欢的理由说具体,比如这门专业课的特点,或者给你在某些方面有启发等)

例:我大学期间最喜欢 XX 课。首先,因为 XX 课的老师非常认真负责,课堂氛围好。其次,这门课有清晰的逻辑,同时也有一定难度,我喜欢挑战有难度的课程。最后,因为这门课和实际社会问题/我今后想从事的行业联系紧密,我能从中学到很多实用的知识。

My favorite course in college was XX.

First of all, because the teacher of this course is very conscientious and the learning atmosphere is pleasant.

Secondly, this course has clear logic, but it is also difficult. I like challenging difficult courses.

Finally, this course is closely connected to practical social problems/the industry I want to be engaged in the future, so I can learn a lot of practical/useful knowledge from it.

5.你在大学期间学到的最重要的是什么? /大学期间最大的收获是什么? 你在大学期间你的最大贡献是什么? 获得过哪些成就/荣誉/证书? What was the most important thing you learned in college?/What was your greatest contribution during college?/What awards/certificates have you received?

(收获可以是学习方面的、人际关系、能力提升方面的, 最好写出具体事件; 贡献可以说自己为班级/学校/社会做了什么, 帮助哪一群体之类的; 成就/荣誉就把那些奖学金、奖状、专利、论文作品等翻译成英文即可。)

例: (1) 真诚的好友和敬业的老师是我大学期间最大的收获。我的朋友在我最难过的时候陪伴我, 我的老师让我学到知识, 是他们让我的大学生活变得充满欢乐和感动。

(2) 我在大学期间最大的收获是学会辩证地思考问题/放下偏见/学会包容/学会用长远、全面的眼光看待事物/不迷信书本和权威/自信心增强了。(加上具体事件)

(3) 我在大学期间最大的贡献是参加了一个针对留守儿童群体的服务/每年暑假去边远山区支教, 我尽可能地把我知道的知识分享给他们, 给予他们关怀。我们相处的十分愉快, 我回来以后也一直和他们通过书信或软件保持联系。他们总是在向我表达感谢, 其实我更加感谢他们, 因为在与孩子们相处的过程中我感受到了生命的活力和纯净的灵魂。

(1) Sincere friends and dedicated teachers are the biggest gains in my college life. My buddies accompanied me when I was most unhappy and my teachers tried their best to teach me knowledge. They made my college life colourful.

(2) The most important thing I learned in college was to think critically/to put down prejudice/to be tolerant/to consider things in a long-term and comprehensive manner/not to blindly trust books and authority/that my confidence increased.

(3) My greatest contribution in college was to participate in a service for left-

behind children/that I volunteered to teach in remote areas every summer vacation. I tried my best to share my knowledge with them and gave them care. We got along very happily, and I kept in touch with them through letters or software after I came back. They continually express their appreciation to me. 6.大学期间的遗憾是什么? What are your regrets of your university life?

例: 第一, 没有掌握平衡学习和生活的能力; 第二, 没有掌握控制学习压力的能力, 但是最近我发现运动是一个很好的释放压力的方式, 当我有压力的时候, 我就会去跑步。

Firstly, I don't learn the ability to balance study and life.

Secondly, I don't learn the ability to release the pressure of studying, but now I find that running is a good way to alleviate pressure. If I am under pressure, I will go running to relieve it in the upcoming period.

7.谈谈你的毕业论文/毕业设计。Please give a brief introduction of your graduation thesis.

(写毕业论文的同学把论文的摘要翻译成英文, 要**简化**一些, 主要是理论、研究目的、研究方法、结果、结论等进行简单说明, 说**重点**, 说**创新之处**; 做毕业设计的学生把设计依据、主要对象、主要技术参数、方法和手段等进行说明; 突出创新点。还没有开始做的同学把自己的思路简单说一下, 比如自己主要的研究对象、研究问题、研究方法、已经完成的工作等。)

例: 我的研究探讨了为养老院居民运用 DoR 的意义、障碍和促进因素。我运用了定性研究, 包括半结构化访谈。14 名参与者于 2016-2017 年参加了该项研究。分析表明, 参与者对 DoR 的描述具有一致性, 包括四个要素: (a) 个人是决策的中心; (b) 生活涉及风险; (c) 个人必须有选择; (d) DoR 是一种经验的连续体。DoR 投入实践的三个主要障碍为: (a) 平衡自主与风险; (b) DoR 的情境性; (c) 承担风险。这项新发现提供一种关于 DoR 的清晰解释以及

在养老院环境中应用该原则的促进因素和障碍因素。

My study explored the meaning and the barriers and facilitators to applying DoR to NH residents. I used qualitative study, comprising semistructured interviews. Fourteen participants took part during 2016 - 2017. Analysis demonstrated uniformity in participants' description of DoR, comprising four elements: (a) individuals are at the centre of decision making; (b) life involves risk; (c) individuals must have a choice; and (d) DoR is a continuum of experiences. Three main barriers for implementing DoR into practice were identified: (a) balancing autonomy with risks; (b) situational nature of DoR; and (c) taking responsibility for risk. The novel findings provide an explicit understanding of DoR and the facilitators and barriers to applying the principle in the NH setting.

（四）研究生阶段相关

1.为什么想读研? Why do you want to go to graduate school?

例：第一，我们现在的社会是一个“学习型社会”，知识更新的速度很快。很明显的是坚持学习会让我们拥有更多的机会。第二，我们的人生大部分时间都在输出，能在集中的时间里沉下心读一些书的机会越来越珍贵。所以我想尽可能争取这样获得知识的机会。第三，我喜欢 XX 专业，我觉得自己的本科期间的学习还很不足，想深入对 XX 专业进行学习。（如果可以我今后想走学术研究的道路。）

Firstly, our current society is a learning society. The pace of knowledge renewal is accelerating. It is obvious that persisting in learning will facilitate us to have more opportunities.

Secondly, we spend most of our lives producing, and the opportunity to indulge in a few books at a fixed time is increasingly scarce. So I wish to strive for the opportunity to acquire as much knowledge as possible.

Thirdly, I like XX major, and I think my undergraduate studies are still inadequate. So I desire to further study XX major. (I would like to do academic research in the

future if possible.)

2.为什么选择我们学校? Why do you choose to study at our school?

例: 我认为, 选择 XX 主要有三个原因: XX 大学的综合实力强。有很多优秀的老师, 学风很正。第二, XX 大学有我喜欢的研究方向。第三, 我以后打算留在 XX (地区) 发展。XX 大学是 XX (地区) 实力很强的院校, 对于我来说是非常合理的选择。高考的时候就很想来贵校, 但当时自己没能实现这一目标。我希望读研能弥补这份遗憾。

I have thought about it very seriously. In my opinion, there are three main reasons to select XX:

Firstly, XX University has strong comprehensive strength. There are many excellent teachers. Meanwhile, it has a strong academic atmosphere.

Secondly, XX University has my favorite research direction.

Thirdly, I intend to stay in XX for further development. And XX University is a university with strong strength in XX, which is a very reasonable choice for me.

I wanted to go to this college very much when I was in high school, but I failed to reach this goal. I hope I can make up for this regret.

3.为什么选择这一专业? 你对 XX 专业的理解? 为什么选择继续攻读 XX 专业的研究生? 为什么跨 XX 专业? Tell me something about your major? Why do you choose the major?

(这几个问题的回答其实差不多, 根据自己实际想法稍加润色, 当然是要夸专业好, 陈述专业有哪些作用, 但是也可以适当地指出专业的不足, 所以希望自己能贡献一份力量; 本科读的不是该专业, 则说明自己的专业的特点, 以不同的视角和研究生专业相结合相融合, 碰撞出新的火花)

例: 首先, 我本科读的就是 XX 专业。我认为这个专业十分有魅力, 它即是艺术又是科学。XX 是科学是因为它逻辑清晰, 有基本的原则; 说 XX 是艺术是因为它具有情境性/纯粹性, 让人产生探索解答的兴趣。

其次, 我对我们专业 XX 方向比较感兴趣, 也发现我们专业在 XX 方面还有一

定局限性, 我未来想在这几个方面进行深入学习, 为专业发展贡献自己的力量。

First of all, I studied this major in college. I think this major, very attractive, is both art and science. On the one hand, XX is science because it has clear logic and basic principles. On the other hand, XX is art because it is situational/pure, which makes me eager to find answers.

Secondly, I am interested in the XX of our major, and also discover that our major has some limitations in XX. I desire to further study these aspects in the future and make my own contribution to professional development.

4.你认为研究生和本科生最大的差别是什么? What is the difference between graduate and undergraduate?

例: 第一, 研究生要更加关注事物的本质, 更注重研究和解决问题。第二, 本科更多的是注重全面但浅层次的知识, 注重基础。而研究生在巩固基础的同时注重专业能力的提升。第三, 研究生需要更关注前沿知识, 确定自己的研究兴趣。需要阅读更多的专业期刊, 参加更多的专业会议。

In my opinion, there are three differences between graduate and undergraduate students:

Firstly, graduate students pay more attention to the nature of the problems and pay more attention to research and solving problems.

Secondly, the knowledge of the undergraduate stage is comprehensive but superficial. We focus on the foundation. However, graduate students pay attention to improving professional ability while consolidating the foundation.

Thirdly, graduate students need to show solicitude for the frontiers of subjects and determine their own research interests. They are supposed to read more professional journals and attend more professional conferences.

5.如果这次考研(保研)失败, 你会怎么做? Will you be upset if your cannot get into our program?

例: 我认为人能不能做成一件事有三个因素: 天赋、努力和运气。每件事中

这三个因素的比例可能都在变化。其中天赋和运气并不是我能控制的, 努力是可控的, 所以我只能把握好这一方面。因此, 如果这次考研(面试)失败我当然会很失落, 因为自己努力了。但是我不会因为这次的失败而放弃, 我会检查自己的弱点, 尽我所能取得进步。我想只要我坚持下去, 总有一天我会有考上或者在其他方面实现自我价值。

I think there are three factors for people to succeed: talent, hard work and luck. The proportions of these three factors in each event may differ. Talent and luck are out of my control, but effort is controllable. I can only grasp this aspect. Therefore, if I fail this time, of course I will be very lost that I have tried my best to prepare for the examination. But I will not give up, I will check my weaknesses and continue to make progress. I think as long as I persist, one day I will be able to pass the exam or achieve self-realization in other aspects.

6.你打算怎样度过研究生阶段? What are your plans for graduate school?

例: 在研究生期间, 除了完成学院要求的课程学分之外, 我将在导师的指导下从两个方面来完善自己。首先, 在学术科研方面, 我将从阅读大量中外文献、读经典书籍开始。跟随导师认真学习, 积极关注学术前沿, 参加学术会议, 争取在毕业之前发表一篇高水平的论文。为了实现这一目标, 我会尽力改正拖延的缺点, 每月给自己制定计划, 严格要求自己。其次, 在生活方面, 我想养成良好的运动习惯和稳定的生活作息, 这有益于我保持良好的心情和精神状态。另外, 我想更多地与不同专业的人交流, 不仅可以扩大交际圈, 也有益于自己多学科视野的形成。

During the postgraduate period, in addition to completing the course credits required by the college, I will improve myself from two aspects under the guidance of my tutor.

First of all, in terms of academic research, I will start by reading a lot of literature and classic books. I will pay attention to current advances and academic frontiers, attend more academic conferences, and strive to publish a high-level paper before graduation. In order to achieve this goal, I will try my best to correct the

shortcomings of procrastination, make a plan for myself every month, and be strict with myself.

Secondly, in terms of life, I want to develop a good exercise habit as well as a stable daily routine, which is beneficial to keep a good mood and mental state.

In addition, I want to communicate more with people of different majors, which can not only expand my circle of friends, but also widen my horizon.

7. 研究生阶段如何平衡学习和工作? How to balance study and work?

例: 对于浮躁的社会生活来说, 静下心来学习其实是一种放松, 能静下心来学习其实是一种能力。我会每月给自己制定计划, 按计划执行, 兼顾学习和生活。

For the impetuous society, calming down to study is actually a kind of relaxation, and being able to calm down to study is actually an ability. I will make a plan for myself every month and carry it out according to the plan.

8. 研究生期间你希望获得哪项技能? What skills would you like to acquire during your graduate study?

例: 在研究生期间最希望获得学术英语相关的能力和深度思考的能力。首先, 英语仍然是与专业前交流的重要工具。一些权威的期刊和书籍依然以英语为主要语言, 因此必须掌握英语听说读写的技能。其次, 现在我们被碎片化阅读、短视频等包围, 缺少深度思考。很多研究停留在现象的描述, 而不是问题的解决。因此我需要加强深度思考的能力。

During the postgraduate period, I hope to acquire the English ability for academic purposes and the ability to think deeply.

First of all, English is still an important tool for communicating with professional frontiers. Some authoritative journals, books, international conferences still use English as the main language, so it is essential to master English listening, speaking, reading and writing skills.

Secondly, we are now surrounded by fragmented reading and short videos, so we lack depth thinking. We can see a lot of studies stop at describing phenomena

rather than solving problems. Therefore, I need to strengthen my ability of deep thinking.

9.你感兴趣的研究方向是? Which research direction do you want to choose?

(感兴趣的研究方向+为什么, 比如社会在 XX 方面有极大的需求; 想从事相关的职业; 该研究方向符合自身某些特点; 可以从自己的本科学习经历、人生经历出发讲理由等等)

例: 我对社会工作中的老年人社会工作及社会政策方面很感兴趣。首先, 现代社会老龄化很严重, 老年人在养老、医疗、休闲娱乐、婚姻家庭等方方面面都有很多问题存在, 亟待解决。其次, 我爷爷患有阿尔茨海默病, 我深刻感受到人到老年的不便和无奈, 我希望通过学习来帮助我的爷爷和更多像我爷爷一样的老年人。

I am very interested in social work and social policy for the elderly.

First of all, the aging of modern society is very serious. For example, in the pension, medical care, entertainment, marriage and other aspects of the elderly exist a lot of problems to be resolved.

Secondly, my grandfather suffers from Alzheimer's disease. Consequently, I deeply feel the inconvenience and helplessness of people who are getting old. I hope to help my grandfather and more elderly people like him through my major.

10. 如何处理你和导师意见不同/感兴趣的方向不同的情况? How would you handle a disagreement with your tutor?

例: 首先, 我会和导师深入交谈。我会用合适的语言和充足的证据向导师展现我的想法, 并且说明我的想法/选择的可行性或者不足之处。其次, 导师的经验丰富, 其想法是更加深刻和长远的, 我会尊重老师的意见和建议, 认真客观的去思考他的思路, 从中获得新的想法和见解。最后, 在充分的沟通和论证以后, 我会在老师的帮助下, 融合自己的想法和导师的建议, 设计出一个更加合理的课题方案。

First of all, I will have deep communication with my tutor. I can use appropriate language and sufficient evidence to display my ideas and demonstrate the feasibility or shortcomings of my idea/choice.

Secondly, my tutor has rich experience and his/her ideas are more profound and long-term. I will respect my tutor's opinions and suggestions, understand his/her ideas seriously and objectively, and get new ideas and insights from him/her.

Finally, after sufficient communication and demonstration, I will design a more reasonable project with the help of the tutor, merging my own ideas and the advice of the tutor.

11. 研究生毕业后你打算做什么? What would you like to be doing five years after graduation?

例: 我想继续攻读博士学位/想工作/想考公/创业/支教, 这主要出于两方面的考虑。第一, 我从小理想就是成为一名高校教师/白领/公务员/企业家。我希望为人民和国家奉献自己, 实现自己的人生价值和社会价值。第二, 我认为探索未知的领域能给我带来快乐, 我更愿意去做研究; 同时我喜欢和学生在一起, 想带动更多人一起为 XX 专业的进一步发展贡献力量。

I want to continue my doctoral study/work/take part in the National Civil Servant Examination/start my own business/volunteer teaching, there are two reasons.

Firstly, my dream since childhood is to become a college teacher/white-collar worker/civil servant/entrepreneur. I hope to dedicate myself to the people and the country, and realize my life value and social value.

Secondly, I think exploring unknown areas can bring me happiness, and I prefer to do research. At the same time, I prefer to be with students and want to drive more people to contribute to the further development of XX major.

二、专业问题的提问

1.你读过哪些 XX 专业相关书籍? 请你结合具体书籍谈一谈该书对本专业有什么启示?

(也可以用于非专业书籍的回答, 跨专业的也需要了解所考专业的基本专业书籍, 没有时间去读原书就去喜马拉雅听书、知乎等平台搜一搜)

例: 我的专业是_____, 关于 XX 专业我最感兴趣的书籍是_____。这本书是由_____写, 主要讲的是_____, 它对我的学习有很好的指导意义, 尤其当我对专业中复杂的理论感到困惑时。我喜欢这本书的另一个原因是这本书中提到的问题都经过深思熟虑, 并且后面的深意远远超过看起来那么简单。我尤其感兴趣的部分是_____, 我认为这点很有说服力, 也很诱人。它讲述了_____的重要性。

I major in XX. My favorite book about XX(专业) is _____. It's written by _____. And it's primarily about _____. It can act as perfect guidance in my studies, especially when I'm confused by some complicated principles in my major. The other reason why I love this book is that it seems that every issue mentioned in the book has been well-considered. The profound meaning behind the book is more than what it just appears. I'm particularly impressed by the part elaborating that _____. I believe the point is pretty convincing and inviting. It convinces me of the critical significance of _____. All in all, I've learned a lot from this impressive book.

2. 如何用你的专业解释某一问题?

(首先粗略描述问题的现象, 再结合自己的专业分析问题的原因和从哪个方面介入该问题)

例: XX 问题是全球共同关注的问题。中国在发展中也遇到了 XX 等问题。从 XX 专业的角度看, XX 问题的产生有以下几个原因: 第一, 第二, 第三。这个问题很复杂, 我曾经看过一篇论文/看到有学者提出了几点策略。第一, 第二, 第三。

XX is a global issue of common concern. China has also confronted XX and other problems in its development. From the perspective of XX specialty, the problems are caused by the following reasons:

Firstly, _____.

Secondly, _____.

Thirdly, _____.

This problem is very complicated. I once read a paper/saw some scholars put forward some strategies.

Firstly, _____.

Secondly, _____.

Thirdly, _____.

3. (跨专业) 你认为你原来的专业和本专业可以在哪些方面进行融合?

(先说自己专业的特点, 主要研究什么, 再说自己对目标专业的理解, 说明自己认为的这两个专业的相同点和不同点, 再着重在相同点上分析二者可以结合的方面。)

其他问题就是本专业一些具体的学科知识了, 一般识记类的需要背专业名词的应该是以中文面试为主, 但是不排除有难度的英语面试中会要用英语回答专业知识问题。同学们应该准备自己专业相关的英语名词等资料。

三、社会热点问题

这里主要针对文科类专业, 大概 4-5 句话, 准备几个自己专业相关的社会热点问题, 把主题词的英语背熟, 面试的时候紧张的话就用最简单的语法, 不要再去想用漂亮的表达, 你都不一定会有逻辑, 面试时基本是“嘴巴比脑子快”。所以把主题词的英文说对, 对自己的观点进行说明清楚就不错了。以下问题是在搜集的时候发现有些学长学姐被问到过, 可以看看自己会不会回答。

关注内容: 社会民生问题, 经济问题等

信息渠道: 中国新闻网, 中华网, 凤凰网, China Daily 等

1. 现代科学技术的发展趋势? What is the development trend of modern science and technology?

例: ①屏幕化的世界: 无所不在的屏幕必将深刻改变人、文化和商业。

②进一步的人机交互: 触摸、语音、体感等依旧是自然人机交互的初步阶段。比如你看屏幕的时候屏幕其实也可以看你, 了解你的状态, 不断优化学习, 提供更符合你的服务。

③共享是一个重要的趋势。

④大数据流: 人与人, 物与物之间的数据将“漂浮”在我们身边。

⑤访问权而不是拥有权: 拥有的客体从实物变成信息后, 拥有的概念也就改变了。听音乐不再需要买 CD, 看图书不再需要实体邮寄, 存储空间也不再需要买硬盘来扩展。数字化让访问权替代了拥有权的概念。

⑥价值转移: 过去产品通过海量复制, 然后销售复制品收获价值。而今, 价值将不在于复制品本身, 而在于对用户价值的满足。比如手机不要钱但流量要钱。价值不在于创造了实物价值, 而在于创造了“沟通”这个用户价值。(2015 年的回答)

① Screen World: the ubiquitous screen will profoundly change people, culture and business.

② Further human-computer interaction: touch, voice and body feeling are still the preliminary stage of natural human-computer interaction. For example, when you

look at the screen, the screen can also look at you, understand your state, constantly optimize learning, and provide services more in line with you.

③Sharing is an important trend.

④Big data flow: data between people and objects will "float" around us.

⑤Access rather than ownership: the concept of ownership changes when the object of ownership changes from material object to information. There is no need to buy CDs to listen to music and to buy hard disk to expand storage space. Digitization has replaced the concept of ownership with access.

⑥Value transfer: in the past, products were copied in large quantities, and then sold as replicas to gain value. Today, the value will not lie in the replica itself, but in the satisfaction of user value. For example, mobile phones don't need money, but traffic needs money. The value lies not in creating physical value, but in creating the user value of communication.

2.请你阐述一下科技对当代社会发展的重要性? What is the importance of science and technology to the development of modern society?

第一, 科学技术推动生产发展和社会变革。今天, 科学技术的发展水平, 已经成为一个国家综合国力的主要因素, 成为衡量一个国家发达与否的重要标志。

第二, 科学技术促进经济增长。经济增长的三要素即增加劳动力、增加投资、技术创新, 技术创新已成为最起关键作用的要素。科学技术从根本上决定着国家的经济实力, 发展中国要成为经济发达国家, 必须依靠科技进步。

第三, 科学技术促进精神文明建设。今天, 在全体公民中大力普及科技知识、科学思想和科学方法, 提高全民族的科学、文化素质, 用科学技术战胜迷信、愚昧和贫穷, 促进整个社会精神文明向前发展。

第四, 科学技术协调人与自然界的关系。一部科学技术发展史, 就是一部人类认识自然、利用自然、改造自然的文明史。协调人与自然界的关系, 科学技术肩负着重要的任务。

Firstly, science and technology promote production development and social change. Today, the development level of science and technology has become the

main factor of a country's comprehensive national strength and an important symbol to measure whether a country is developed or not.

Besides, science and technology promote economic growth. Science and technology fundamentally determine a country's economic strength. To become an economically developed country, developing China must rely on scientific and technological progress.

In addition, science and technology promote the construction of spiritual civilization. We will vigorously popularize scientific knowledge, ideas and methods among all citizens and improve the scientific and cultural quality of the whole nation. Use science and technology to overcome superstition, ignorance and poverty and promote the spiritual civilization of the whole society.

Finally, science and technology coordinate the relationship between man and nature. A history of the development of science and technology is a civilized history of human understanding, utilizing and transforming nature. Coordinating the relationship between man and nature is an important task for Municipal Science and technology.

3. 请分析科技的利弊。 Please analyze the advantages and disadvantages of technology.

利: 推动了社会生产力的发展; 促进了社会经济结构和社会生活结构的重大变化; 人类的衣食住行发生变革; 科学技术大幅度提高, 为世界文化的发展提供了雄厚的物质基础; 给全世界各国经济的发展, 带来了机遇。

Firstly, it has promoted the development of social productive forces.

Secondly, it has promoted major changes in the socio-economic structure and social life structure.

In addition, changes have taken place in human clothing, food, housing and transportation.

Besides, the substantial improvement of science and technology has provided a solid material foundation for the development of world culture.

Finally, it has brought opportunities for the economic development of countries all over the world.

弊: 第一, 环境污染。随着科学技术的迅猛发展, 现代工业生产的急剧增长, 环境污染日益显出全球性, 对整个人类的生存构成了威胁。

第二, 生态危机。由于人类不合理的活动, 特别是利用科学技术向自然无限索取的活动, 导致生态系统的结构和功能的损害和瓦解, 从而危害人类的利益, 威胁人类生存和发展。

第三, 资源短缺。长期以来, 人类有一种错误的看法, 认为地球上的资源是取之不尽、用之不竭的, 但随着科学技术和生产力的发展, 人类已经面临自然资源短缺的局面。

Firstly, environmental pollution. With the rapid development of science and technology and the rapid growth of modern industrial production, environmental pollution has intensified, which poses a threat to the survival of the whole mankind.

Secondly, ecological crisis. Unreasonable human activities, especially those that use science and technology to demand unlimited from nature, lead to the damage and disintegration of the structure and function of the ecosystem, which endangers human interests and threatens human survival and development.

Thirdly, there is a shortage of resources. For a long time, human beings have a wrong view that the resources on the earth are inexhaustible. But with the development of science and technology and productivity, human beings have been facing the shortage of natural resources.

4.对于西方媒体关于我国疫情防控的不实言论, 你怎么看? What do you think of the untrue remarks made by western media on China's epidemic prevention and control?

第一, 西方媒体普遍持“双标”看待全球问题。

第二, 主流媒体过度商业化, 热衷于负面新闻, 缺乏社会责任。

第三, 政治、社会等舆论“习惯性”妖魔化中国。游戏政治下催生政治儿戏化、政客小丑化。

第四, 西方民众普遍固守极端个人主义和极端自由主义。

First, this sufficiently demonstrates that western media generally hold a double standard view of global issues.

Second, we can see that the western mainstream media are over commercialized, keen on negative news and lack of social responsibility.

Third, western public opinion habitually demonizes China. Game politics gave birth to the playfulness of politics and the clowning of politicians.

Fourth, many western people generally stick to extreme individualism and extreme liberalism.

5. 你从新冠疫情肺炎全球大流行中学到了什么? What lessons learned from the COVID-19 pandemic?

例: From my perspective, in the world, human beings must follow the laws of nature. The power of human beings is small. Don't think that we are powerful. No one can surpass them and kill other species at will. The laws of nature are the fairest. We must respect other species, or we will be retaliated by other animals. To protect nature and other species is to protect ourselves.

(从疫情防控中积极和消极的方面入手。积极的有: 疫情中的志愿者、医护人员、基层工作者的奉献精神; 中国全体人民团结一心战胜疫情; 公共卫生应急响应机制的完善等; 消极方面有: 疫情政治化、疫情对经济的打击、疫情中的种族歧视、个别地区防疫不当等)

6. 新冠疫情给我们带来了什么影响? What are the effects of 2019-nCoV?

例: The novel coronavirus pneumonia has brought some negative impacts on China's current economy, but the overall impact is short-term and limited. It is a test for traditional enterprises such as shopping malls and restaurants. (经济角度)

The pneumonia epidemic is not only a simple, isolated plague, but also closely linked to our environmental behavior, production patterns and environmental quality. Therefore, it is imperative to establish an ecological civilization view of harmony

between man and nature, and to choose a lifestyle that is friendly to the environment and responsible for the environment. (生态环境)

Through this epidemic, people should reflect on the relationship between humans and nature. We should live in harmony with nature and revere nature and life. It can be predicted that environmental protection and various health industries will usher in opportunities for development. (人与自然)

When an emergency occurs, as an important way to interact with the media and the public and actively control information, the press conference must provide accurate and detailed information, respond to issues of public concern, effectively deal with public opinion crisis, guide public opinion and pacify the public. (危机管理)

From the medical workers, we can see the spirit of selfless, dedication, which is a good ideological education course for young people living in the age of excessive entertainment. (青少年思想)

7.你怎么看短视频热? What do you think of the short video trend?

例: 短视频的火爆是这个时代网络的一个大趋势。而短视频如此火爆的因素在于一个是门槛低。短视频的录制十分便利, 视频内容不受限制, 用户群体广泛。用户群体有普通用户、广告商、自媒体人、明星, 展示了以短视频为载体的网络信息多元化。这种短视频平台的出现给相应的用户带来许多赚钱的机会。第二个因素便是个体的习惯。比起单一的文字人们往往更喜欢视觉化的东西。视频比图片在动态效果上更能加快理解速度, 短短几分钟的视频能满足人们忙碌生活中的碎片化阅读。

The popularity of short videos is a major trend of the Internet in this era. One of the reasons why short videos are so popular is that the threshold is low. The recording of short videos is very convenient, the video content is not limited, and the user group is wide. The user groups include ordinary users, advertisers, we media and stars, which shows the diversification of network information with short video as the carrier. The emergence of this short video platform brings many opportunities for

corresponding users to make money. The second factor is individual habits. I prefer visual things to single words. Video can speed up the understanding speed in dynamic effect than pictures. A few minutes of video can meet the fragmented reading in people's busy lives.

8.请评价直播带货助农。Please comment on the live video to help farmers sell their produce.

大家面试的时候一定不要表现的过于紧张,要做到吐字清晰,说话声音要大,舒展自己,表现的大大方方的(不会也要装)。自我介绍的时候要注视老师,眼睛不要一直乱瞟或者一直眨眼(中英文自我介绍要做到倒背如流),另外就是一定要模拟面试,挑出你的不足之处,反复打磨。如果有需要一对一定制自我介绍模板或者模拟面试的学弟学妹们也可以找我哦。最后,祝准研究生的你面试顺利,一战成硕!!!
